FAQs:

Q: What types of certifications can I obtain?

A: CABT- Certified Associate Biomedical Technician: 3 - 6 months

CBET- Certified Biomedical Equipment Technician: 2 years

Q: Do I have to move to Jackson?

A: No, but you have to live in Tennessee, close enough to commute. We believe that workbench experience is crucial, and online courses don't offer the same hands-on experience needed.

Q: Do you offer these classes online?

A: No, we believe that hands-on experience with the units is crucial to the program and the certification.

Q: Do I have to be a resident of TN?

A: Yes, you have to live in Tennessee to be accepted.

Q: How much does this program cost?

A: The program doesn't cost you anything, in fact you will actually be paid for your work!

Q: Do I have to take the entire 2-year course?

A: No, you can stop after whatever level of certification you want. However, we recommend staying the full 2 years and finishing your CBET certification.
